Beihang University (BUAA), formerly called Beijing University of Aeronautics and Astronautics, was founded in 1952 and has been one of the state key institutes or academies from China and abroad. The core faculty and experts have extensive and varied experience in the field of space science and technology activities by educating and creating awareness through theoretical knowledge and systematic expertise in the field of space science and technology.

The Centre has established extensive cooperation with space industries. A notable example is the United Nations Programme on Space Applications (UN-PSA) into the significant role in promoting social development. The Centre has been a venue for the UN-PSA’s Regional Centers of Space Technology Education and Application (RCSSTEAP), which was established in 2013 with the aim of furthering the education, training and capacity building in the Asia-Pacific region. The RCSSTEAP in China (RCSSTEAP (China)) is an essential part of the UN-PSA’s global network.

The Centre of Beihang University (BUAA) for degree programs, including more than 700 master and doctoral students, and 26 countries are studying at Beihang in 2016. Among them over 1,200 are studying Bentham and combining disciplines in science, engineering, humanity, law, economics, and technology.

The Centre of Beihang University (BUAA) is located in the heart of “China’s Silicon Valley” – Zhongguancun Science Park. The campus of Beihang is one of the top universities in China equipped with advanced facilities for education, accommodation and recreation. It is only 20 minutes away from the Shijingshan Park and the National Stadium by subway.

This program focuses on training the participants with solid theoretical knowledge and systematic expertise in the field of space science and technology.
